PRIÄGE™

ECO-PEDIC MATTRESS

We know how important it is to be conscience of our environment. Spirit Sleep has always made an effort to be Clean, Healthy, Fresh, and Pure. That is why we are so pleased to announce our new Priage line of Eco-Pedic foam mattresses.

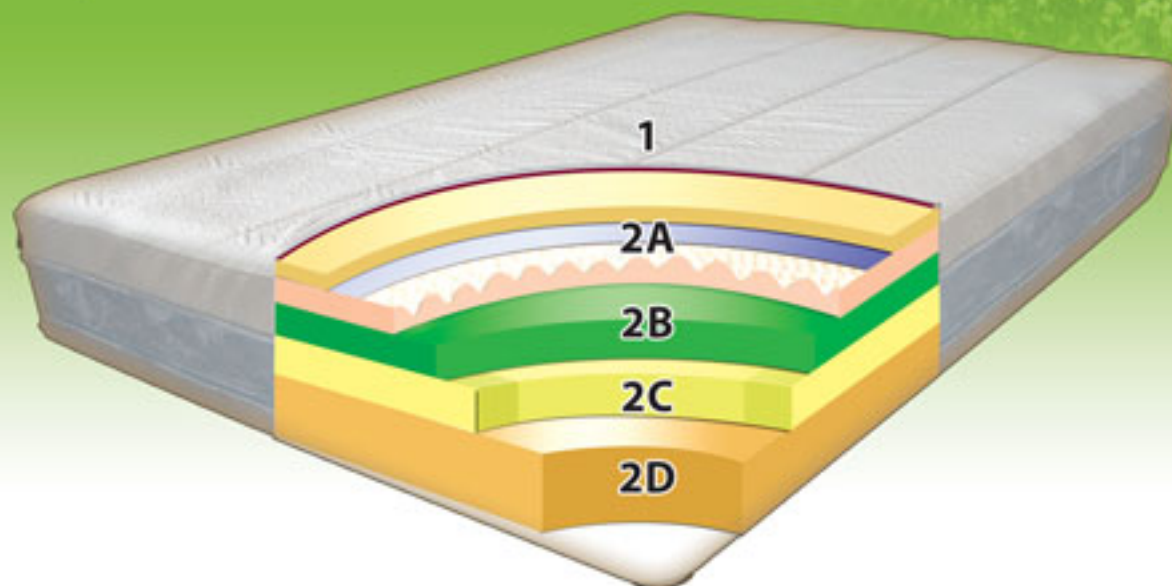

SILK

12" Castor based Foam Mattress

The Eco-Pedic Silk mattress is a Castor foam Based mattress that uses a silk poly jacquard cover.

Because of its natural protein structure, silk is the most hypoallergenic of all fabrics. An all-climate fabric, silk is warm and cozy in winter and comfortably cool when temperatures rise. Its natural temperature-regulating properties give silk this paradoxical ability to cool and warm simultaneously. By using the silk we are continuing with the renewable resource option for our mattresses.

ORGANIC 12" Castor based Foam Mattress

The Eco-Pedic Organic mattress uses the Castor Oil Based foam and has an Organic Cotton cover. Why choose organic? Because cotton accounts for 50% of the world's textile market. And it takes some of the harshest chemicals to grow it conventionally, for instance:

- It takes 1/3 pound of agricultural chemicals to produce one cotton t-shirt.
- 25% of the world's insecticides are used in cotton production.

Live better in sustainable, pesticide-free organic cotton that's easier on the earth, the people who cultivate it, and on you.

When you think of sleep you can't help but think of the classic style, beauty, and comfort of a coil mattress. In order to embrace that classic notion we have introduced our new coil line after the classics of Hollywood cinema.

GRABLE 9" iCoil Mattress

Grable is a name synonymous with classic Americana.

This 9" individual pocketed coil mattress is designed with that same classic look in mind. With its small ribboned panel quilting patten on white Poly Jacquard, and its 7.5" individual pocketed springs, this mattress will win you over with its look and its feel.

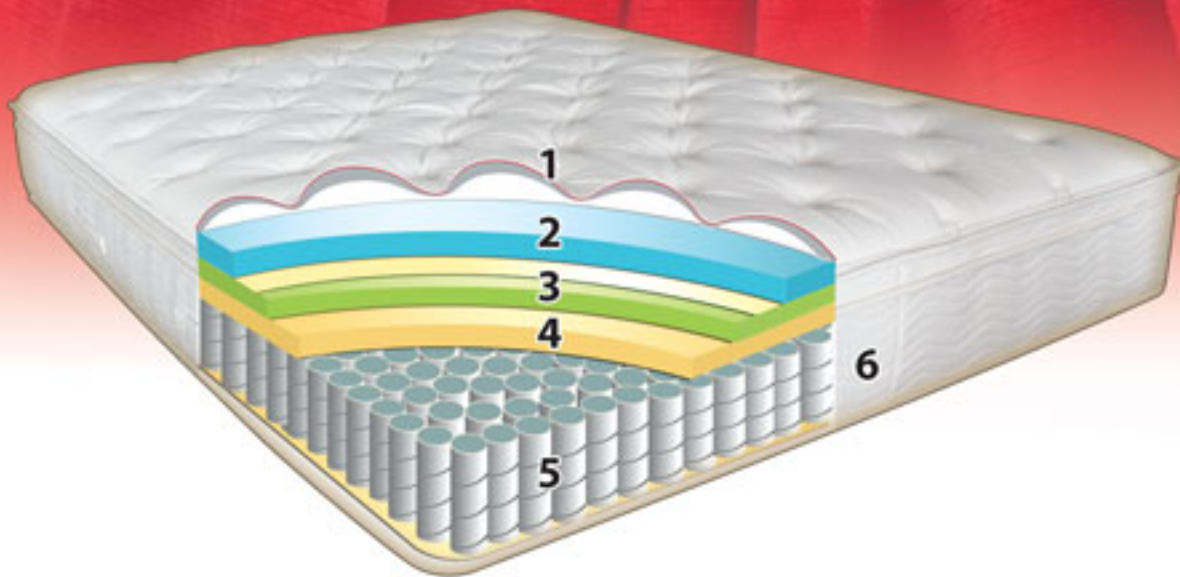

1. Quilted Poly Jacquard cover with 1" super soft fiber padding
2. .5" HD Foam
3. 7.5" Individual pocketed coils
4. Quilted white poly Jacquard boarder

Our mattresses are compressed and rolled then sealed in a water proof canvas bag. Then all of our mattresses are boxed in shippable boxes via FedEx or a carrier of your choice. (Please note that some mattresses exceed the size of normal ground transportation so additional handling fees may apply.)

IN A BOX!

1. Remove rolled mattress from box. Lay on SmartBase or Foundation.
2. Cut away outer white wrapper.
3. Unroll compressed mattress and cut away the clear plastic wrapper.
4. Remove plastic. Mattress continues to expand fully.

Clean:

All of our products are compressed triple sealed and double boxed for maximum clean protection.

Healthy:

Silver Science technology is infused into our mattresses; it naturally eliminates multiple species of bacteria and viruses, yet completely harmless to the individual.

Natural antibiotic and antimicrobial properties in silver are widely recognized and used in health-care products ranging from bandages, burn care treatments and many products where infection control is critical. At Spirit Sleep, we infuse silver into the foam or fibers of our mattress and pillow cover fabrics to create a naturally cleaner, fresher, and healthier sleep environment. Now everyone, especially allergy sufferers, can benefit from a healthier sleep environment knowing that our new technology works to eliminate the millions of dust mites that can infest mattresses and pillows.

Fresh:

Evergreen Green tea and ActivCharcoal foam assists in eliminating odor for ultimate freshness from our factory to your home.

All Natural EverGreen Green Tea is added to our memory foam products to neutralize odors commonly associated with memory foam. It continues to control odor over the lifetime of the product, thereby maintaining freshness longer. Green tea is fast becoming a lifestyle product as consumers begin to recognize the benefits green tea can bring to an overall feeling of health and comfort.

Pure:

The antibacterial and natural odor-absorbing properties in our unique packaging bring you a pure and exquisite product.
